

## **Net Stable Funding Ratio (NSFR)**

The Basel Committee on Banking Supervision (BCBS) had introduced the Net Stable Funding Ratio (NSFR) in order to ensure resilience over a longer-term time horizon by requiring banks to fund their activities with more stable sources of funding. NSFR is defined as the amount of available stable funding relative to the amount of required stable funding. "Available stable funding" (ASF) is defined as the portion of capital and liabilities expected to be reliable over the time horizon considered by the NSFR, which extends to one year. The amount of stable funding required ("Required stable funding") (RSF) of a specific institution is a function of the liquidity characteristics and residual maturities of the various assets held by that institution as well as those of its off-balance sheet (OBS) exposures. The Bank is required to maintain the NSFR on an ongoing basis on a standalone Bank and on a Group Level. The minimum NSFR requirement set out in the RBI guideline for the Bank effective October 1, 2021 is 100%.

The following table sets out the unweighted and weighted value of the NSFR components of Bandhan Bank as on 30<sup>th</sup> September 2025.

## Amount in Cr.

32	Net Stable Funding Ratio (%)					134.16%					130.86%

The Bank maintained Available Stable Funding (ASF) of Rs 131,662.19 crores as against the Required Stable Funding (RSF) of Rs 100,609.88 crores as on 30th September 2025.

The Available Stable Funding (ASF) is primarily driven by driven by the total regulatory capital as per Basel III Capital Adequacy guidelines stipulated by RBI and deposits from retail customers, small business customers and non-financial corporate customers as well as refinance from NHB/NABARD. Under the Required Stable Funding (RSF), the primary drivers are unencumbered performing loans with residual maturities of one year or more, including performing residential mortgages.

The NSFR maintained by the bank is well above the regulatory stipulation of 100%. This indicates that the Banks assets are funded through stable liabilities and the Bank has the ability to withstand any stress in up to 1 year horizon.
